

## Research Assistants

The Environmental Performance Index ([EPI](#)), a project of the Yale Center for Environmental Law & Policy ([YCELP](#)), is a biennial report that ranks 180 countries according to their performance on indicators of sustainability. The EPI is hiring student research assistants for the Fall 2017 Semester.

### Duties may include ...

- Conduct literature searches on subjects related to global environmental performance
- Read, note, and summarize literature on these subjects
- Compose annotated and thoroughly documented memoranda
- Conduct basic data exploration and visualizations
- Work with the Principal Investigator on other duties as assigned

### Requirements

- Demonstrated research and writing skills
- Strong organizational skills and attention to details

### Preferences

- Professional or extracurricular experience writing about the environment
- Background in environmental science or related disciplines
- Experience using R
- Experience using Zotero or other citation management software
- Availability to extend position through Spring 2018

Pay will be at established Yale rates. The position will require up to 10 hours per week; hours are generally flexible.

To apply, please send the following to [zach.wendling@yale.edu](mailto:zach.wendling@yale.edu) with "EPI RA" in the subject line:

- Resume or CV
- 300 words on how this position matches your experience and professional development
